

Recent developments in PDEs: theory and applications

A conference in honour of Vladimir Georgiev's 70th birthday

February 16-17, 2026 · University of Pisa, Italy

This two-day conference focuses on the theory and applications of Partial Differential Equations. The aim of the meeting is to gather leading experts and researchers to propose and discuss recent advances in the field of Partial Differential Equations.

The conference is dedicated to honoring our dear colleague and friend, Professor Vladimir Georgiev, on the occasion of his 70th birthday. It serves as a celebration of his deep scientific achievements, his influential contributions to the study of PDEs, and his commitment to the academic community.
