The Joint Research Centre (JRC) is the European Commission's in-house science service. Operating in Belgium, Germany, Italy, Spain and the Netherlands, with a headcount of over 2,800, the JRC is currently seeking post-doctorate researchers from the EU Member States and from Associated Countries\* with the right blend of academic/professional experience to work at the cutting edge of scientific and technological developments supporting EU policies.

If you have a sound track record of research in **Natural Sciences; Quantitative Sciences; Human and Social Sciences; Agricultural, Environmental and Earth Sciences; Health Sciences**, you can make all the difference within the JRC's stimulating multicultural environment. In return, you can expect a challenging fixed-term opportunity, a competitive remuneration package and the chance to become involved in some of the most exciting research initiatives in Europe today.

## Europe needs post-doc researchers...
