

# Open academic position at the Department of Mathematics of ULB in Applied Analysis.

---

## Description

The Faculty of Sciences of the Université Libre de Bruxelles (ULB) announces the opening of a full-time academic position in the Department of Mathematics starting October 1, 2012.

Candidates are expected to lead high quality teaching and research programmes in applied analysis.

All applicants are expected to hold a PhD in Mathematics or related disciplines and to have a strong record of publications as well as research experience in the area of applied analysis.

The applicants should also have accomplished an international postdoctoral training of a global duration equivalent to one academic year.

The selected candidate will develop his (her) research activities in the field of applied analysis and he/she will progressively be loaded by teaching duties in order to attain a volume comparable to his/her colleagues (typically 120h of classes per year). This position in the academic staff of the Department of Mathematics implies a participation to the teaching (courses, seminars and exercise classes) depending from the College of Mathematics, both at the Bachelor and Master levels. The teaching duties may be revised regularly and are typically assigned for renewable periods of five years.

For candidates not fluent in French, a temporary period of teaching in English may be granted but it is expected that the candidate will be rapidly able to teach in French at all levels.

If the selected candidate is neither already employed by ULB nor employed by the Fonds National de la Recherche Scientifique and working at ULB, he/she will be offered a first contract for a duration of three years. The aim of this probation period is to make sure that the teacher has sufficient pedagogical skills and is satisfactorily integrated in the University. At the end of this period and subject to the agreement of the Board of the University, the position will become permanent.

## How to apply ?

Applications (two copies) should be sent as soon as possible, and before March 1, 2012, to the following address:

Professeur Didier Viviers,  
Recteur de l'ULB  
ULB CP 130  
50 Av F.D. Roosevelt  
B-1050 Bruxelles

with subject : "Vacance poste académique en analyse appliquée au Département de Mathématique, Sciences".

An electronic copy of the application should be sent to :

Professeur François Reniers  
Doyen de la Faculté des Sciences  
[annick.gerlache@ulb.ac.be](mailto:annick.gerlache@ulb.ac.be)

as well as to:

Professeur Griselda Deelstra  
Présidente du Département de Mathématique  
[Griselda.Deelstra@ulb.ac.be](mailto:Griselda.Deelstra@ulb.ac.be)

The application should consist of (i) a curriculum vitae, (ii) a description of the candidate's pedagogical project, (iii) a description of the research project that the candidate intends to pursue in the coming years, (iv) a text presenting the (up to five) most significant publications of the candidate and (v) a copy of these most significant publications (up to five).

The candidates are invited to use the standard model of curriculum vitae proposed at ULB. This model can be downloaded via the following link:

<http://www.ulb.ac.be/facs/sciences/admin/docs-admin/Cvtype.rtf>

## Additional information:

As stated by its statutes, the University of Brussels is a non discriminating institution and all its members are expected to adhere to its fundamentals principles.

For any additional information please contact Professors Christine De Mol ([demol@ulb.ac.be](mailto:demol@ulb.ac.be)) or Denis Bonheure ([denis.bonheure@ulb.ac.be](mailto:denis.bonheure@ulb.ac.be)).
