Colloquio De Giorgi

Martedì 22 Novembre 2011
ore 16.00

Scuola Normale Superiore
Pisa
(Sala Stemmi)

Yves Andre'

Ecole Normale Supèrieure di Parigi.

Terrà un seminario dal titolo:

"Galois theory beyond algebraic numbers and algebraic functions"

Abstract:

Classical applications of Galois theory concern algebraic numbers and algebraic functions. Still, the night before his duel, Galois wrote that his last mathematical thoughts had been directed toward applying his "theory of ambiguity to transcendental functions and transcendental quantities". In this talk, we will outline some recent ideas and results in this direction.
