

# Seminar Series on Quantum Computing

## *Platforms and methods for quantum computing*

**Simone Montangero**  
(University of Padova)

### **Abstract:**

We present an overview of the current status of the quantum computing landscape, presenting some of the most developed hardware platforms together with a selection of recent results and methods currently driving the technological development of this potentially disruptive technology.

Venue: **Sala Gerace, Dipartimento di Informatica**  
Time: **Monday, 25/03/2024, 16:00**
