

**WORKSHOP 25-27 SEPTEMBER 2022**  
**"Model Evaluation and Causal Search: Empirical and Experimental Approaches"**  
Centro Congressi le Benedettine (Pisa - Italy)

This workshop is meant to promote scholarly discussion about new methods and techniques for empirical and experimental validation of quantitative models in economics. The goal is to give scholars a chance to meet and discuss their work on model evaluation in economics combining different approaches such as methods for causal learning, agent-based modelling, economic experiments, metrics of goodness and completeness, models with artificial agents in markets.

Methodological, empirical, and experimental papers are all welcome.

If you are interested in presenting, please send your paper to [workshop.pisa.2022@gmail.com](mailto:workshop.pisa.2022@gmail.com) by **30 June 2022**. The workshop will be hosted by the University of Pisa and Sant'Anna School of Advanced Studies, and features a friendly atmosphere, which allows for discussing high quality research in a convivial environment. Regular sessions will be introduced by our keynote speakers: Daniela Puzzello (Indiana University), Thomas Lux (University of Kiel), Alessio Sancetta (Royal Holloway University of London), and Tobias Henschen (University of Cologne).

The organization will sponsor the social dinner and accommodation for the speakers. No fee is required, but all participants are warmly requested to attend all sessions.

#### **Deadlines**

June 30th: Deadline for submissions

July 20th: Notification of acceptance

For more information on the conference, please contact: [workshop.pisa.2022@gmail.com](mailto:workshop.pisa.2022@gmail.com)

#### **Scientific committee.**

Fulvio Corsi (University of Pisa)

Raffaello Seri (University of Insubria)

Rachele Foschi (University of Pisa)

Alessio Moneta (Sant'Anna School)

Francesco Feri (Royal Holloway University of London)

Alexia Gaudeul (European Commission)

#### **Organizing committee**

Caterina Giannetti (University of Pisa)

Francesco Cordoni (University of Pisa)

Mario Martinoli (Sant'Anna School)

**Sant'Anna**  
School of Advanced Studies – Pisa
