

The Faculty of Mathematics and Economics at the University of Ulm invites applications for

a professorship (W3) in "Insurance Mathematics"

to be filled as soon as possible.

Candidates should have an outstanding research and teaching record in insurance mathematics. We expect important contributions to the underlying mathematical theory and its applications to relevant insurance problems. Experience in third-party funding as well as collaboration with other research groups at the faculty and the university are desired. In particular, participation in the faculty's core research area "Financial Services and their Mathematical Foundation" is expected.

Teaching includes courses for students in our mathematical programs and our teacher training program as well as mathematical courses for students in other programs of study.

Conditions for appointment are a completed course of studies at a university, pedagogical aptitude, doctorate and additional academic qualifications (§ 47 LHG).

Ulm University is committed to increase the proportion of women in research and teaching and therefore explicitly encourages female candidates to apply.

Applications with the usual documents in written form (including CV, teaching experience, reprints of the three most important publications, and copies of academic degrees and relevant certificates) are due by March 14, 2014 to the Dean of the Faculty of Mathematics and Economics, Prof. Dr. Dieter Rautenbach, Ulm University, D-89069 Ulm, (Phone: +49 731 50 23500, Fax: +49 731 50 23610, <http://www.uni-ulm.de/mawi>). In addition, please send all documents in electronic form (Email: mawi.dekanat@uni-ulm.de). Please indicate on the envelope the reference number 10.

Physically disabled applicants receive favourable consideration when equally qualified.
